

Local development for North-east fishing businesses and communities

The North East of Scotland Fisheries Local Action Group has been set up to support community-led local development for businesses and communities within North Aberdeenshire, South Aberdeenshire, and Angus where funding will be targeted on coastal settlements with demonstrable associations with the fisheries sector.

Funding from the European Union and Scottish Government has been awarded to the North East of Scotland to support Community-Led Local Development in fishing communities. The funds will support the delivery of the North Aberdeenshire, South Aberdeenshire, and Angus Local Development Strategies, which were developed through engagement and consultation with communities and industry.

The funds will be managed by the North East Scotland Fisheries Local Action Group, which is a partnership of community, private and public organisations. Community, public and private organisations are able to apply for funding from the European Maritime and Fisheries Fund programme for projects which support the delivery of the Local Development Strategies in the following eligible communities:
